

S&OP Report a.k.a. MD04 On Steroids

- INCREASE YOUR PERFECT ORDER METRIC BY 20%
- IMPROVE CUSTOMER RELATIONSHIPS BY DELIVERING ON-TIME, COMPLETE ORDERS
- MAKE REAL-TIME INVENTORY DECISIONS WITH REAL-TIME INFORMATION

Are you spending the majority of your day compiling information together in order to make critical business decisions?

Is your information obsolete by the time you gather it together from multiple sources?

Are you taking information out of SAP to perform the material planner function?

At one point, you made an investment in SAP to run your entire business. Get back to being a best-run business by leveraging this powerful SAP report.

Email or call us to book your demo of this report at no charge. We challenge you to compare your current Materials planning process to what this Best in Class report has to offer.

This Sales & Operations Planning Report provides:

- ‡ Visibility to Supply, Demand, Inventory and Days of Supply data 6 months out
- ‡ View this information for multiple materials based on your selection criteria
- ‡ View information for all materials within a plant
- ‡ Expand and collapse the different categories to view totals or itemized details
- ‡ Double-click on a specific material to focus in on that info only
- ‡ There is a wide range of selection criteria to get the relevant information

We will load the code base of the S&OP report at a fixed cost of only \$3,200! Book your free WebEx demo to see the value of this offering without a commitment to purchase!

Success is Measured by the Strength of our Client Relationships

"We've been impressed by CONTAX's ability to provide effective business intelligence support for us, the people we have worked with are knowledgeable and understand our business needs and requirements. They have helped us develop effective solutions that can be transitioned to our internal team and are quick to respond when we need additional help."

Jeff Cremeans – Director of Information Technology
Lastar Inc. - www.lastar.com

"The projects that CONTAX EDI specialists have completed for us range from standard to highly-customized solutions. Because they understand our business processes, they're able to analyze our complex requirements and tailor cost-effective solutions that fit our specific needs. I'm confident that CONTAX can take on any kind of project that we're up against."
